

# How to Dispose of Household Trash and Recyclables

## Trash Disposal Rules

1

### Sort your trash and put it out at the designated collection point by 8:00 a.m. on the collection day.

- The city will not collect trash placed at collection points after collection was made or trash that has not been properly sorted.
- If you put out trash at night, crows or other animals may rummage through it, and that may cause foul odors and noise.

By 8:00 a.m.

2

### All residents must manage the collection point together.

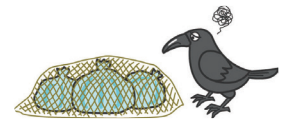

- Residents should consult with each other, set rules, and use the trash collection point appropriately (putting away nets and boxes after trash is collected, cleaning, removing illegally dumped items, etc.).
- Put away the city-designated boxes and nets as soon as possible. Leaving them out often leads to illegal dumping.
- Take measures to prevent strong winds blowing away city-designated boxes and nets.
- For trash collection points handled by a management company, such as for apartments, please follow the management company's rules and instructions.

3

### Use anti-bird nets appropriately.

- Make sure the net completely covers the trash bags.
- Take measures to prevent the nets from getting loose when there is a strong wind.
- Anti-bird nets are available at the Environmental Development Section service window, Resident Service Stations, and Yanasegawa Station Branch Office.

4

### Do not dispose of difficult-to-process garbage at trash collection points.

- If you have any questions about how to sort trash, see "How to Dispose of Items That Are Difficult to Sort" (pp. 7-10) or the Shiki City website. For items that are marked as "Not accepted" in that list, please contact a retailer or a Shiki City certified general waste collection company to collect the item (fee required).

Note: Items handled and fees differ by company. Contact the companies directly for more information.

## 4R

### Refuse

Refuse items that will likely become waste

### Reduce

Reduce the amount of waste generated

### Reuse

Reuse items that can still be used

### Recycle

Recycle items whenever possible

Kapal

©Shiki City Public Corporation for Culture and Sports Promotion

Shiki City has signed an agreement on collaboration and cooperation to promote reuse activities with Jimoty, Inc.

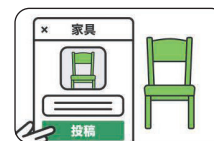

Offer usable items through Jimoty, such as those categorized as oversized trash, to others for reuse.

No registration fee or handling fee!

Post an item in five minutes!

Hand-deliver items in your neighborhood; complete transactions as early as the same day.

Get rid of unneeded items without paying any fees!

Jimoty website ▶

## Recyclables

### PET bottles

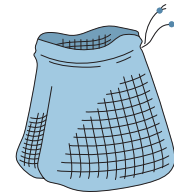

Items with this mark:  
For soft drinks and alcoholic  
beverages  
For soy sauce and *mirin*  
For non-oil dressings

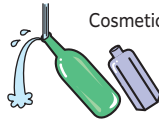

- Only clean items are accepted
- Remove lids and labels and dispose of them by material
- Flatten PET bottles before disposal

City-designated blue nets

### Glass bottles/spray cans

Remove caps from bottles.

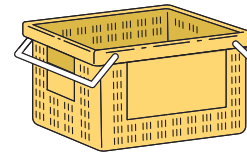

Cosmetic bottles

- Remove the caps and rinse out the bottles. Dispose of by material (bottles/cans).
- Place broken bottles in a transparent plastic bag
- Make sure to use up the content of spray cans
- There is no need to pierce a hole in spray cans

City-designated yellow boxes

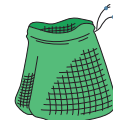

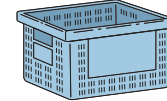

### Cans

- Rinse out cans.
- Use up the contents of oil cans before disposal.

City-designated blue boxes or green nets

### Paper

Newspapers

Cardboard

Magazines

Place in paper bags, etc.  
Miscellaneous papers  
Tissue paper, flyers,  
confectionary boxes,  
old postcards, etc.

Paper cartons

- Dispose of newspaper inserts with newspapers
- Items that are wet due to rain or the like will not be collected
- Dispose of the following as burnable trash:

Oil paper, wax paper, carbon paper, aluminum-coated paper, thermal paper, stickers, shredded paper, coated paper

Bundle each type with paper or plastic string. Do not use duct tape to bundle items.

For collection points that use dumpster-sized collection boxes, do not put them in the collection box.

### Fabric

Clothing

Cotton blankets

- Dispose of futons, quilts and the like as oversized trash
- Dispose of soiled items as burnable trash
- Dispose of clothing lined with cotton or the like as burnable trash
- Items that are wet due to rain or the like will not be collected

Place items in a transparent or semitransparent plastic bag.

For collection points that use dumpster-sized collection boxes, do not put them in the collection box.

## Recyclable Plastic

Items with this mark/  
Items made of plastic

Plastic bottles

Plastic egg cartons

Plastic shopping bags

Rigid plastic and plastic containers

Thin outer labels and plastic caps

Bags for snacks, etc.

CD and DVD cases

Nets for apples, etc.

Plastic toys

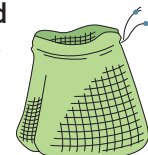

Food trays

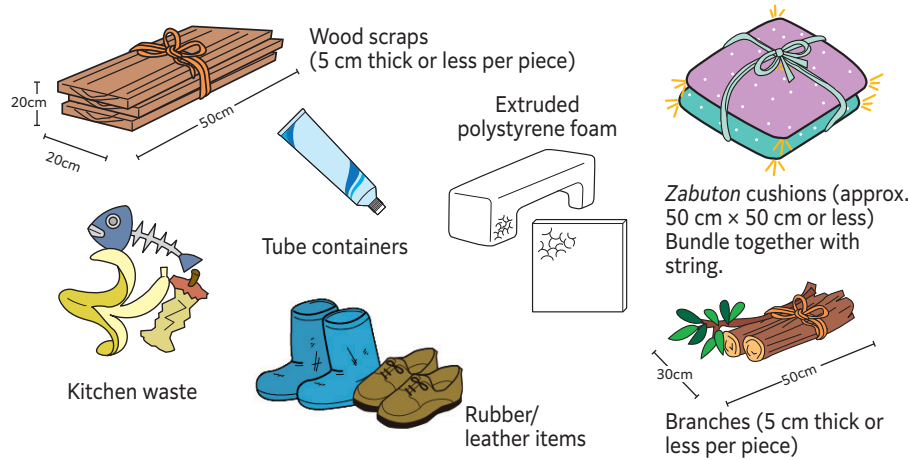

- Rinse lightly to clean. Dispose of items that cannot be cleaned as burnable trash.
- Dispose of extruded polystyrene foam used for cushioning and packaging as burnable trash.
- Dispose of items larger than *itto-can* (24 cm × 24 cm × 35 cm) as oversized trash.

City-designated light green nets

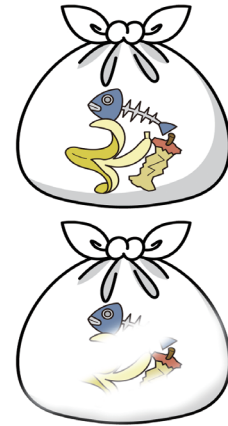

Note: Remove items from the bag you were storing them in and place them in the net.

## Burnable Trash

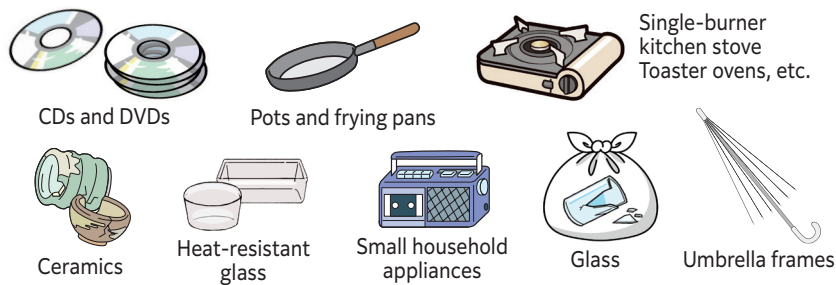

- Drain kitchen waste completely before disposal
- Flush excrements down the toilet before disposing of diapers
- If you cannot remove the metal parts of bags, belts and the like, dispose of them as unburnable trash

Place items in a transparent or semitransparent plastic bag.

## Unburnable Trash

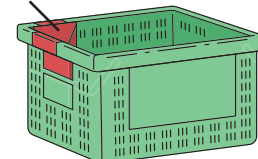

### Metal/Small household appliances Glass/Ceramics

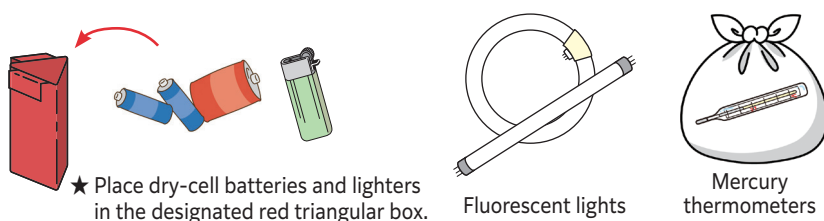

- Place sewing needles, razors and the like in a metal container, seal it, and mark it "きけん" (*kiken*; dangerous) in red
- Dispose of items larger than *itto*-can (24 cm x 24 cm x 35 cm) as oversized trash
- Place broken cups, glass and the like in a transparent plastic bag
- Dispose of the canopy of the umbrella as burnable trash
- Wrap kitchen knife blades in a towel or paper, and mark it "きけん" (*kiken*; dangerous) in red

City-designated green boxes with red triangular boxes attached

Triangular box

## Hazardous Trash

- Insulate button batteries with sticky tape and take them to a cooperating store with collection cans  
Note: You can find a list of cooperating stores on the Battery Association of Japan website.
- Use up contents of lighters before disposal

Battery Association of Japan website

- Place fluorescent lights and mercury thermometers in transparent plastic bags
- Bring recyclable batteries to the recycle box of a cooperating store  
Note: You can find a list of cooperating stores on the JBRC website.

JBRC website

### Caution!

To prevent garbage truck fires and other accidents, never dispose of lithium-ion, nickel-cadmium or nickel-hydrogen batteries at trash collection points.

## Oversized Trash Trash that does not fit into an *itto*-can (24 cm× 24 cm× 35 cm)

### Examples of oversized trash

Metal products,  
gas kitchen stoves, etc.

Wardrobes

Chairs

Carpets, futon

Bicycles

Electric appliances, etc.

### Dispose of your items using one of the following methods:

(1) Individual collection (up to five items per application)

(2) Drop off items directly at the Fujimi or Niiza environmental centers.

**Please call the Shiki City Oversized Trash Collection Application Center (Tel: 048-473-5311) to apply.**

Hours: 8:30 a.m. to 5:15 p.m. on weekdays (excluding national holidays and the year-end/New Year's holidays [December 29 to January 3])

Note: You can also apply online at any time through your PC or smartphone.

<https://ecolife.e-tumo.jp/shikisodaiuketuke-u/>

Application  
website

Please purchase the appropriate amount in oversized trash disposal tickets according to your application (no reissues or refunds).

Note: For the latest list of ticket agents, please visit the Shiki City website or contact the Shiki City Oversized Trash Collection Application Center.

Drop off your items at the Fujimi Environmental Center or Niiza Environmental Center on the reserved date and time.

**Note: Your drop-off location depends on the type of item.**

Attach the disposal tickets to each item and place the items in the specified location by 8:30 a.m. on your designated collection day.

Your items will be collected on the date you requested (you cannot designate a collection time). Note: You do not need to be present during collection.

## Disposing of Business-Related Trash

Trash generated at factories, stores, and other business establishments cannot be disposed of at household trash collection points.

Under Article 3 of the Act on Waste Management and Public Cleaning, businesses are responsible for properly disposing of trash generated during their business activities.

Dispose of such waste using one of the following methods:

### (1) Through a Shiki City certified general waste collection company

Contact one of the companies on the list of Shiki City certified general waste collection companies (p. 5) to request collection.

Note: You will have to pay a collection and transportation fee. Please ask the company you intend to use for more information.

### (2) Drop off items directly at the Fujimi or Niiza environmental centers

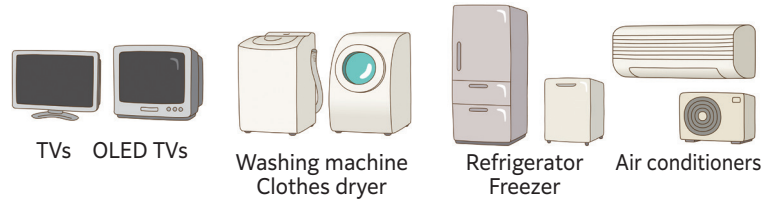

Apply to the Shiki City Oversized Trash Collection Application Center and bring your trash directly to an environmental center.

See "Drop off items directly at the Fujimi or Niiza environmental centers" above for information on how to make an application

# Items the City Does Not Collect (1)

## The Four Categories the Home Appliance Recycling Law Covers

**TVs (CRT, LCD, plasma, and OLED);  
washing machines/clothes dryers;  
refrigerators/freezers; air conditioners  
(including outdoor units)**

Note: A designated recycling fee is required for all disposal methods. The Association for Electric Home Appliances website posts these recycling fees.

**While all of the following disposal methods are acceptable, please use method (1) whenever possible.**

Association for  
Electric Home  
Appliances website

### Disposal method (1) Have the store where you purchased your item collect it

Request the retailer to collect the item to be disposed of.

If you are purchasing a replacement, ask the store where you purchase it to collect the old item.

Note: You will have to pay a collection and transportation fee in addition to a recycling fee. Please ask the retailer for more information.

### Disposal method (2) Drop off your items at a designated collection site

Pay the recycling fee at a post office and then drop off the item directly at a designated collection site.

The Association for Electric Home Appliances website has a list of designated collection sites.

Designated collection sites in the area	Company name	Address	Phone number
	Transport Ace and Ace	1-7-7 Negishidai, Asaka City	048-260-6588
	Morita Transport, Tokyo Metropolitan Area Sales Office	1012 Kami-Okubo, Sakura Ward, Saitama City (within Saitama Truck Center)	048-749-1071
	Nagao, Recycling Center	200-1 Oaza Shingo, Tokorozawa City	04-2946-5716

### Disposal method (3) Ask a Shiki City certified general waste collection company to collect your item(s).

Contact a company listed on the list of Shiki City certified general waste collection companies that handles items in the four categories of the Home Appliance Recycling Law and request collection.

Note: You will have to pay a collection and transportation fee in addition to a recycling fee. Please ask the collection company for more information.

List of Shiki City Certified General Waste Collection Companies	
Company name	Phone number
Nojima Shoji (Handles items in the four categories.)	048-478-2049
Omura Shoji (Handles items in the four categories.)	048-472-0328
Yamaki	048-532-1740
Shiki Recycle (Handles items in the four categories.)	048-471-1931
Kinoshita Friend (Handles items in the four categories.)	04-2944-3737
Tamura Environmental Transport	049-257-6636
Katayama Shoji, Owada Branch (Handles items in the four categories.)	048-479-4831
Shimazaki	049-222-4474

List of Shiki City Certified General Waste Collection Companies	
Company name	Phone number
KOUKI (Handles items in the four categories.)	048-749-1142
Assist (Handles items in the four categories.)	048-456-3356
Clean System	048-831-4615
Japan Clean Service (Handles items in the four categories.)	048-471-7755
Takahashi Sansho	048-652-8884
Sekiguchi Kogyo	048-472-2822
Katayama Shoji, Niiza Branch (Handles items in the four categories.)	048-482-6021

As of April 1, 2023

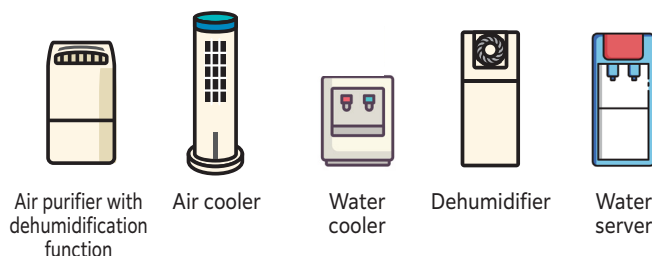

Certified companies were subject to change after April 1, 2024. For the latest information, please visit the Shiki City website.

## Items the City Does Not Collect (2)

### Items applicable to the Act on Rational Use and Appropriate Management of Fluorocarbons

**Air purifiers with dehumidification functions, air coolers, water coolers, dehumidifiers, water servers, etc.**

Note: How to check if a substance contains fluorocarbons  
On the main unit, “冷媒ガス” (refrigerant gas),  
“フロンガス” (CFCs), “R-134a,” “HCFC-22,” etc. will be listed

Fax the Saitama Reito Kucho Kogyokai (SAIREIKO [Saitama Refrigeration and Air Conditioning Industry Association]; Fax: 048-883-7062) to request collection and disposal. You can also make a request via email from the association's website (<https://saireiko.or.jp/freon/>)

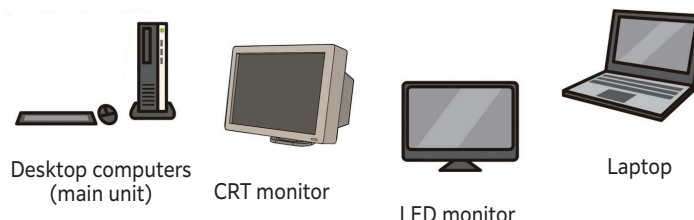

SAIREIKO website

## Items the City Does Not Collect (3)

### Items the Act on the Promotion of Effective Utilization of Resources covers

**Personal computers (desktops, monitors, laptops, etc.)**

In accordance with the Act on the Promotion of Effective Utilization of Resources, the city does not collect and dispose of PCs, etc.  
Dispose of PCs and related equipment using one of the following methods:

#### Disposal method (1) Courier service collection by a city-designated company (free)

- 1 Apply for collection via the Renet Japan Recycle, Inc. website (<https://www.renet.jp/>)  
Note: You are responsible for deleting personal data on PCs. (There are services that provide free deletion software.)
- 2 Pack your PC in a cardboard box  
Box size limit: Total of three dimensions (length, width and height) up to 140 cm, and weight of up to 20 kg.
- 3 The courier company will come to your home at the requested date and time to collect your item(s)  
Note: Up to one box that contains the main unit of a PC will be collected free of charge. Printers and other computer peripherals and small appliances can also be collected together.

Renet Japan Recycle website

#### Disposal method (2) Manufacturer recycles (fee may be charged)

##### Manufacturer is known

- 1 Request collection directly with the manufacturer
- 2 Pay the recycling fee using the payment slip sent to you  
Note: PCs with the PC recycle mark are collected free of charge.
- 3 Pack your PC in a cardboard box and attach the Eco Yu-Pack Slip sent to you. Ask the post office to pick the box up from your home or drop it off at a post office.

PC Recycle Mark

##### Manufacturer unknown and home-built PCs

Request the PC3R Promotion Association (<https://www.pc3r.jp/>) to collect the item(s).

PC3R Promotion Association website

# How to Dispose of Difficult-to-Sort Items

Check on the Shiki City website!

**A more detailed list of difficult-to-sort trash that cannot be included in this booklet is posted on the Shiki City website.**

<https://www.city.shiki.lg.jp/index.cfm/37,87249,149,588,html>

Item	Category	Reasons and conditions for collection
Screen doors	Oversized	
Plastic packaging with aluminum lining	Recyclable plastic	Packaging for frozen foods and snacks with aluminum lining (has Pla mark).
Aluminum foil	Unburnable	
Safety shoes	Unburnable	
Rocks, sand (including cat litter), soil, blocks	Not accepted	These are considered construction waste.
Clothing cases (plastic)	Oversized	You can recycle these as plastic resources if you can cut them into pieces smaller than 24 cm × 24 cm × 35 cm.
Wheelbarrows	Oversized	Items used during business activities are not collected.
Itto-cans (24cm×24cm×35cm)	Can	Use up the contents completely and wipe off any remaining oil, paint, solvents and the like with an old cloth, etc. (items used during business activities are not collected).
Medical equipment (tubes, bags and other items used for home healthcare)	Burnable	Objects without sharp edges (IV bags, tubing, injectors, insulin cartridges, etc.)
Medical equipment (other than the above)	Not accepted	Return to a hospital or other medical institution.
Clothes dryers	Not accepted	Item covered by the Home Appliance Recycling Law; not collected even if dismantled.
Dentures	Unburnable	
Winglet (two-wheeled personal transporter)	Not accepted	Return to the retailer (since they are motorized, they can cause a fire when crushed at processing facilities).
Wind fans	Oversized	Items with no cooling function.
Water server	Not accepted	Those containing CFCs are not collected.
Water server	Oversized	Electronic types that use no refrigerant are accepted.
Plant pots (plastic)	Recyclable plastic	Clean before disposal. If larger than 24 cm × 24 cm × 35 cm, dispose of these items as oversized trash.
Plant pots (ceramics)	Unburnable	If larger than 24 cm × 24 cm × 35 cm, dispose of these items as oversized trash.
Heated-water bidet toilets	Oversized	Clean and place in a plastic bag.
Rice mortars (wooden or stone)	Not accepted	There is a risk of damage to the crusher, internal hammers, etc.
AED	Not accepted	Contact the store where the item was purchased (distributor) or the manufacturer (since the manufacturer or distributor registers and manages the installation location).
Air compressors	Not accepted	Dispose of as unburnable trash if the item is 24 cm × 24 cm × 35 cm or smaller.
Air conditioners (including window types and the outdoor unit)	Not accepted	Items covered by the Home Appliance Recycling Law; not accepted even if dismantled. However, units embedded in the ceiling or wall are accepted because they are not subject to the law.
Body kits (automobile parts)	Oversized	Cut into pieces 2 m × 1 m or less.
High-efficiency water heaters (such as Eco Cute, Eco One, Eco Will and Ene-Farm)	Not accepted	
Electronic organs	Oversized	
PVC pipes	Oversized	Ones for household use only. Dispose of these as burnable trash if they are 5 cm in diameter and 50 cm in length or less. Larger items up to 2 m are accepted as oversized trash.
Engine oil (liquid)	Not accepted	The city does not collect this oil in a liquid state. Please contact a retailer for disposal.
Engine oil (solidified)	Burnable	
Engine oil can (4 liters or less)	Can	Use up the contents completely.
Oil heaters (heating equipment)	Oversized	Remove all oil before disposal.
Oil-less heaters	Oversized	Remove all water before disposal.
Oil lighters	Hazardous	Use up the contents completely.
Lighter fluid cans	Bottle	As with spray cans, use up the contents completely (items that are not completely empty will not be collected). Do not pierce a hole in them.
Motorcycles (including mopeds)	Not accepted	Since there is a risk of damage to the crusher, internal hammers, etc., please use the motorcycle recycle system.
Motorcycle parts	Not accepted	Please contact the store of purchase or the like.
Oscilloscopes	Oversized/unburnable	Items used during business activities are not collected.
Garden incinerators	Oversized	
Potty chairs (toilet)	Unburnable	There may be metal parts inside.
Diapers	Burnable	Flush any excrement down the toilet before disposal.
Toys	Unburnable	Dispose of items made of vinyl or plastic as recyclable plastics. Dispose of as unburnable trash if they contain metal parts. Remove all batteries before disposal.
Organs	Oversized	
Car stereo systems	Unburnable	Accepted as they have nothing to do with driving the car.
Car navigation systems	Unburnable	Pre-installed and add-on systems are both accepted.
Seashells	Burnable	
Electric nursing care beds	Oversized	Only items with motors 20 cm × 15 cm × 15 cm or smaller are accepted. You can also remove the motor if it is larger than the size above.
Handwarmers (disposable)	Burnable	Although the product may instruct you to dispose of them as unburnable trash, processing as unburnable trash may leave some residue.
Umbrellas	Unburnable	Dismantle them and dispose of the handles and frames as unburnable trash. Dispose of the canopy according to its material.
Umbrella stands (ceramics)	Unburnable	If larger than 24 cm × 24 cm × 35 cm, dispose of these items as oversized trash.
Gas cylinders (for cassette stoves)	Bottle	Use up the contents completely (items that are not empty will not be collected). Do not pierce a hole in them.
Gas cylinders (propane)	Not accepted	Only specialized companies can dispose of these items.
Cassette tapes	Unburnable	Dispose of these as unburnable trash since they contain metal parts.
Racing simulator seats for home video game consoles	Oversized	
Small household incinerators	Oversized	Only metal items are accepted; clean out the residue first.
Canoes	Not accepted	Items cut into pieces 2 m × 1 m or less are accepted as oversized trash.
Bags	Burnable	Remove metal parts. If you cannot remove them, dispose of them as unburnable trash.
Wallpaper (cloth)	Burnable	Cut into pieces 50 cm × 50 cm or less.
Glass scraps from a glazier	Not accepted	Glass scraps generated by a glass-handling company are considered industrial waste.
Pumice stones	Not accepted	Small stones used in household baths are accepted as unburnable trash.
Roof tiles	Not accepted	These are considered construction waste.
Simple fire extinguisher (spray type)	Bottle	Use up the contents completely (pierce a hole in the extinguisher if possible).
Desiccants (silica gel, etc.)	Burnable	Lime desiccant is not accepted because it may spontaneously ignite when wet.
Prosthetic legs	Oversized/unburnable	Only those for personal use.
Casts	Not accepted	These are considered medical waste.

Item	Category	Reasons and conditions for collection
Aspirators	Burnable	Only those used for home medical care.
Water heaters (gas)	Oversized	
Safes (stationary type)	Not accepted	There is a risk of damage to the crusher, internal hammers, etc.
Handheld safes	Unburnable	If larger than 24 cm x 24 cm x 35 cm, dispose of these items as oversized trash.
Cooler boxes	Unburnable	If larger than 24 cm x 24 cm x 35 cm, dispose of these items as oversized trash.
Medicine (prescription and household medicines)	Burnable	
Shoes	Burnable	Dispose of shoes with metal parts as unburnable trash.
Wheelchairs	Oversized	Consider reuse.
Wheelchairs (electric)	Not accepted	Consider reuse. Will not be collected since they have iron shafts in the main unit.
Fluorescent tube ballasts	Not accepted	These wastes require special management since they contain PCBs, etc.
Fluorescent lamp fixtures	Oversized/unburnable	Only fixtures for household use are accepted. If larger than 24 cm x 24 cm x 35 cm, dispose of these items as oversized trash.
Diatomaceous earth mats	Not accepted	
Cell phones	Unburnable	Return to the retailer, etc. whenever possible.
Blood-pressure meters (containing mercury)	Not accepted	These are considered medical equipment.
Chemical lights	Burnable	
Cosmetic bottles	Bottle	Same as empty glass bottles.
Kendo equipment	Oversized/burnable	Dispose of the mask, breastplate and bamboo sword as oversized trash. Dispose of the gauntlets as burnable trash.
Go-karts	Oversized	Limited to motorized types; the motor must not exceed 20 cm x 15 cm x 15cm (those with engines are not accepted).
Caulking agent (including dregs)	Not accepted	This is considered industrial waste.
Kokeshi dolls	Unburnable	These often have difficult-to-burn parts.
Legs of kotatsu tables	Burnable	Some of these table legs exceed 5 cm in diameter, but can be accepted in small numbers. Dispose of legs with metal parts as unburnable trash.
Go boards	Oversized	Boards thicker than 5 cm are not accepted.
Copy machines	Oversized	Only copy machines for household use are accepted. Remove all toner, oil and the like. The total of the three dimensions (height, width, length) must be 1.2 m or less.
Golf balls	Burnable	
Concrete blocks	Not accepted	These are considered construction waste.
Compressors	Unburnable	Items larger than 24 cm x 24 cm x 35 cm are not accepted.
Surfboards	Oversized	Cut into pieces 2 m x 1 m or less.
Floor chairs	Oversized	
Saunas (wooden; for household use)	Oversized	Accepted as oversized trash if they are made of wood. However, metal parts must be removed.
Network servers	Oversized/unburnable	Accepted since they are not subject to the PC Recycling Law.
Zabuton cushions	Burnable	Dispose of these as burnable trash if you can cut them into pieces 50 cm x 50 cm or less.
Warning triangles	Oversized/unburnable	Dispose of replacement warning triangles as oversized or unburnable trash.
Coral	Burnable	Crush into small pieces.
Oxygen air chargers	Oversized/unburnable	
UV sterilizers	Oversized/unburnable	
CDs	Unburnable	These are not considered recyclable plastics since they contain metal. Items used during business activities are not collected.
Magnets	Unburnable	
Sichirin grills	Oversized/unburnable	Dispose of these as oversized or unburnable trash depending on their size.
Automobile covers	Oversized	Dispose of these as burnable trash if you can cut them into pieces 50 cm x 50 cm or less.
Automobile parts	Not accepted	This refers to parts required for driving (steering wheel, tires, gears, lights, etc.) and items installed in the car at the time of purchase (jacks, flares, etc.). Dispose of warning triangles and other items you purchased later as oversized or unburnable trash.
Lawnmowers (for household use)	Oversized	Items used during business activities are not collected.
Jacks	Oversized/unburnable	Excluding those installed in automobiles (see "Automobile parts"). Dispose of them as oversized or unburnable trash depending on its size.
Bottles for shampoo, etc.	Recyclable plastic	Rinse cleanly and dispose of the bottle and pump as recyclable plastics.
Fire extinguishers	Not accepted	Only specialized companies can dispose of these items.
Shogi boards	Oversized	Boards thicker than 5 cm are not accepted.
Lighting fixtures	Unburnable	Only fixtures for household use are accepted. Dispose of items larger than 24 cm x 24 cm x 35 cm as oversized trash. Items that contain PCBs, etc. are not accepted.
Cooking oil cans	Can	Use up the contents completely. Soak up unused oil in cloth or paper and dispose of the cloth or paper as burnable trash.
Glass bottles for cooking oil	Bottle	Use up the contents completely. Soak up unused oil in cloth or paper and dispose of the cloth or paper as burnable trash.
PET bottles for cooking oil	Recyclable plastics/burnable	Dispose of these as recyclable plastics if you can empty and clean them completely. Otherwise, dispose of them as burnable trash.
Bags for herbicide	Burnable	
Aquarium chillers	Oversized	Items using CFCs are not accepted.
Inkstones (stone)	Not accepted	Inkstones made of stone are not accepted. Dispose of ceramic items as unburnable trash and plastic items as recyclable plastics.
Steel desks	Oversized	Items used during business activities are not collected.
Temporary billboards	Not accepted	If the item is all paper and you cut it into pieces 50 cm or less, dispose of as burnable trash (remove wires, nails, etc.).
Sand, soil, rocks, blocks	Not accepted	These are considered construction waste.
Spray cans	Bottle	Use up the contents completely (items that are not empty will not be collected). Do not pierce hole in these.
Slot machines (for household use)	Oversized	Only one unit per application. Must be for household use.
Segways (two-wheeled personal transporter)	Not accepted	Return to the retailer (since they are motorized, they can cause a fire when crushed at processing facilities).
Drywall	Not accepted	These are considered construction waste.
Lime (calcium oxide)	Not accepted	
Cement	Not accepted	These are considered construction waste.
Washing machines and clothes dryers	Not accepted	Home Appliance Recycling Law items; not collected even if dismantled.
Bucket-type washing machines	Oversized	Electric bucket-type washing machines without draining functions are accepted.
Wash bowls (plastic)	Recyclable plastic	Dispose of metal wash bowls as unburnable trash.
Washstands (ceramic or enamel)	Oversized	
Ivory	Oversized	Cut into pieces of 2 m or less.
Solar-powered water heaters	Not accepted	
Sofas	Oversized	
Thermometers (mercury)	Hazardous	
Thermometers (digital)	Unburnable	Remove button batteries.
Tires (for automobiles, motorcycles, carts)	Not accepted	
Tires (for bicycles)	Unburnable	Items used during business activities are not collected.
Tire chains (metal)	Unburnable	
Tire chains (rubber or plastic)	Oversized	

Item	Category	Reasons and conditions for collection
Wheels (for automobiles, motorcycles, carts)	Not accepted	
Solar panels	Not accepted	Contact the Photovoltaic Energy System Evaluation Association (Tel: 03-5213-4344).
Tiles	Not accepted	These are considered construction waste.
Bamboo	Oversized	Dispose of items 5 cm in diameter and 50 cm in length or less as burnable trash. Larger items up to 2 m are accepted as oversized trash.
Tatami mats	Oversized	Up to eight mats per household are allowed if you are bringing in the items yourself (a half-sized mat will count as one mat).
Electric kick scooters (two-wheeled personal transporters)	Not accepted	Return to the retailer (since they are motorized, they can cause a fire when crushed at processing facilities).
Ping-pong tables	Not accepted	Items cut into pieces of 2 m × 1 m or smaller are accepted as oversized trash.
Oxygen absorbers	Burnable	Those used in food packaging.
Tablet terminals	Oversized/unburnable	Items with a PC recycle mark are not accepted, since they are handled the same way as PCs. Items purchased through cellphone companies are also not accepted, since they are handled the same way as cellphones.
Daruma dolls	Burnable	Dispose of items with a paper body and plaster base as burnable trash. Dispose of items larger than 24 cm × 24 cm × 35 cm as oversized trash.
Heat insulating material	Not accepted	
Dumbbells (metal)	Oversized/unburnable	Dispose of these as oversized or unburnable trash depending on their size. Although they cannot be crushed, they can be processed as metal scraps.
Chainsaws	Unburnable	Only items with engines 20 cm × 15 cm × 15 cm or less are accepted. Items for industrial use are not accepted.
Car seats	Oversized	Consider recycling before disposing of these.
Firelighters	Burnable	Soak in water before disposal.
Syringes and needles	Not accepted	Return these to the hospital or the like, since there is a risk of infectious disease, etc.
Disposable hand warmers	Burnable	Although the product may instruct you to dispose of them as unburnable trash, processing as unburnable trash may leave some residue.
Disposable lighters	Hazardous	Use up the contents completely.
Pickling stones	Not accepted	There is a risk of damage to the crusher, internal hammers, etc.
Soil, sand, rocks, blocks	Not accepted	These are considered construction waste.
Modeling clay	Unburnable	Large amounts at once (such as from schools) are not accepted.
Rebars	Oversized	Up to 2 m in length and 10 mm in diameter.
Metal pipes	Oversized	Up to 2 m in length, 5 cm in diameter and 2 mm in thickness. Solid metal bars are not accepted.
TVs (including LED, plasma, OLED)	Not accepted	Home Appliance Recycling Law items; not collected even if dismantled. For home appliances with TV tuners, the decision is based on whether the product is primarily used for viewing TV or not. Please contact the manufacturer for information on specific items.
Telephone cards	Recyclable plastic	Check to see if social welfare councils or other organizations are collecting them.
Electric carpets and blankets	Oversized	Dispose of as unburnable trash if you can cut them into pieces 50 cm × 50 cm or less.
Electric cord reels	Oversized	Do not cut the cords.
Electronic pianos	Oversized	
Electric pianos	Not accepted	If the piano contains piano wires.
Electric bicycles	Oversized	Remove the battery. Batteries are not accepted.

Wine cellars	Not accepted	
Wax (liquid)	Not accepted	The city does not collect wax in its liquid state. Please contact a retailer.
Wax (solid)	Burnable	
Broken glass bottles	Bottle	Place in a transparent or semitransparent bag.

# —Trash Disposal After Large-Scale Disasters—

## Household trash

Ordinary trash from households

### Ordinary life trash

Trash from everyday life.  
(Generated during disasters the same as normal times)

## Continue using your regular trash collection point

Note: Disposal of trash other than burnable trash may be limited depending on the scale of the disaster.

## Cleanup waste

Furniture, appliances, tatami mats, bedding, roof tiles, wood chips and the like damaged by disasters

## Bring them to a temporary storage site the city sets up

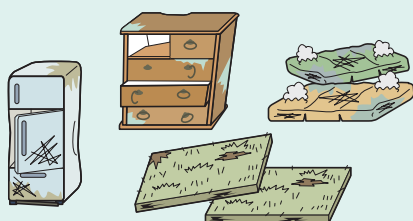

Information about temporary storage sites will be disseminated through the city website, SNS and newsletter.

### What is a temporary storage site?

Places to **temporarily store** disaster waste

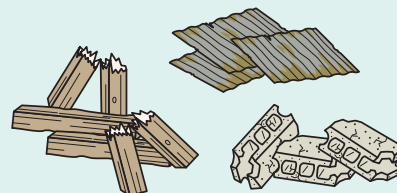

## Disaster Waste

**Do not leave this waste on the side of the street in front of your house or at trash collection points!**

### Cleanup waste

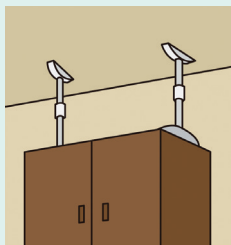

Waste from cleaning houses, etc. after a disaster.  
(Tatami mats, furniture, electric appliances, etc.)

### Debris

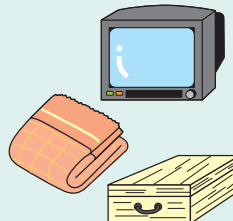

Waste generated when removing collapsed houses, etc.  
(Wood scraps, concrete debris, etc.)

## Start Preparing Today

### ✓ Secure furniture, etc.

- **Secure** furniture and electric appliances so they do not fall over.
- If flooding is expected, move your possessions to the **second floor or above** as a countermeasure.

### ✓ Dispose of unnecessary items

- Organize your belongings and **dispose of** or **recycle** unneeded items. This will also help secure an evacuation route in your home.

## Collection Schedule

Collection is also conducted on national holidays (excluding the year-end/New Year's holidays)

Note: Collection is suspended between December 31 and January 3.
